

GENERATOR PERMIT FEE REBATE PROGRAM 2021

PROGRAM OVERVIEW

- The city is offering a rebate to homeowners for certain permit fees associated with the installation of a permanent standby generator at their home.
- Homeowners must meet the eligibility requirements and submit the required rebate application and documents to receive a rebate of the applicable permit and plan check fees.

Eligibility – To qualify for the rebate

- Applicant must be the homeowner of the property in Sugar Land where the generator was installed.
- A Residential Building Permit application to install a permanent standby generator must be submitted between February 15, 2021 – November 30, 2021.
- All required city inspections must be completed and approved before submitting the application for rebate.

Rebate Process

Rebate application submittal requirements:

- Completed application submitted.
- Copy of approved Residential Building Permit. Homeowners may request copies of the approved permit from their contractor or the city through the open records request process.
- Copy of invoice from contractor detailing work completed.

Installations completed within a given program year will only be eligible for that program year and cannot qualify for any subsequent years this program may be offered.
