

## **8.0 MCM6: INDUSTRIAL STORMWATER SOURCES**

### **8.1 OVERVIEW**

Level 4 small MS4s are required to develop an industrial stormwater sources inspection program. This requirement only applies to Level 4 communities.

### **8.2 TPDES PHASE II PERMIT REQUIREMENTS**

Level 4 small MS4 permit holders shall develop and implement the following:

- (a) Permittees who operate Level 4 small MS4s shall identify and control pollutants in stormwater discharges to the small MS4 from permittee's landfills; other treatment, storage, or disposal facilities for municipal waste (for example, transfer stations and incinerators); hazardous waste treatment, storage, disposal and recovery facilities and facilities that are subject to Emergency Planning and Community Right-to-Know Act (EPCRA) Title III, Section 313; and any other industrial or commercial discharge the permittee determines are contributing a substantial pollutant loading to the small MS4.
- (b) The program must include priorities and procedures for inspections and for implementing control measures for such industrial discharges.

### **8.3 DISCUSSION OF STORMWATER PROGRAMS**

#### **8.3.1 Public Education**

The City will identify and provide education to the public and to facilities regulated under the TPDES TXR050000 Multi-Sector General Permit (MSGP). A series of educational campaigns will be employed over the first three (3) years of the permit. City staff will develop educational material with the goal of educating the regulated community within the City's MS4 area about the new TPDES requirements.

#### **Measurable Goals:**

- Identify and update a database of all MSGP regulated entities within the City's MS4 jurisdiction by December of each year (2019-2024).
- Develop or acquire one educational material for the City's Industrial Stormwater Sources Inspection Program by December of each year (2019-2024).

#### **Evaluation:**

- Record updates to the database information.
- Report the quantity of materials developed/acquired and provide a description of the material.

### **8.3.2 Industrial Stormwater Sources Inspection Program**

The City will develop and implement an inspection program for all MSGP-regulated facilities within the City's MS4 area. Program procedures and inspection forms will be made available for the TCEQ upon request.

#### **Measurable Goals:**

- Develop inspection program procedures for industrial stormwater sources by December 2021.
- Conduct one inspection at 100% of private facilities that require compliance with the MSGP that lie within the City's regulated MS4 area by January 2024.
- Conduct one inspection at 100% of City-owned and operated facilities that require compliance with the MSGP by January 2024.

#### **Evaluation:**

- Record inspection program procedures and document date of procedure creation.
- Document the number of inspections conducted and compare to database.
- Document the number of inspections conducted and compare to database.
